

School Performance Report 2023

Warragul Primary School

October 2023

2023 SCHOOL PERFORMANCE NOTE

The Achievement domain of the Differentiated School Performance Method has been adjusted to cater for the introduction of new proficiency levels for reporting NAPLAN results. The Achievement domain result is derived using percentage of students in "Strong" or "Exceeding" and a relative growth measure.*

The calculation of performance groups for the Engagement domain is different to previous years to enable differentiation between schools when the majority of schools have lower attendance rates compared to previous years. This has resulted in changed split points, which compare performance to the statewide average.

Calculation of the school performance groups is otherwise consistent with previous years.

*The relative growth measure is the same as has been used in previous years and replaces benchmark growth in the 2023 DSPM as relative growth is not affected by the change of NAPLAN scale. Benchmark growth will become available from 2025 when there is sufficient data to calculate benchmarks.

WARRAGUL PRIMARY SCHOOL (2104)

Domains: 6
Measures: 14

Overall Performance Group

Current Level: Medium

Change Level: Increased

Performance is improving from a moderate or low base. These schools could be high performing if they stretch and continued to improve.

As an overall performance group, this indicates that the majority of domains and measures have been improving.

A school's overall performance group represents its combined performance on the Achievement, School Climate, Student Attitudes, Engagement, Participation and Senior Secondary (for secondary, Pri/Sec schools only) domains.

Domain Performance Group

Achievement (Reading)

STRETCH

The Achievement (Reading) domain measures performance on NAPLAN assessments in Reading; this includes achievement in strong or exceeding proficiency levels, lifting low performers and positive change in relative growth.

Achievement (Numeracy)

STRETCH

The Achievement (Numeracy) domain measures performance on NAPLAN assessments in Numeracy; this includes achievement in strong or exceeding proficiency levels, lifting low performers and positive change in relative growth.

School Climate

INFLUENCE

The School Climate domain measures staff endorsements of Collective Efficacy and Academic Emphasis from the School Staff Survey.

Student Attitude

STRETCH

The Attitudes to School domain measures students' engagement in Stimulating Learning, Learning Confidence and Student Safety from the Attitudes to School Survey.

Engagement

RENEW

The Engagement domain focuses on students' attendance.

Participation

RENEW

The Participation domain measures students' participation in NAPLAN assessments, responses to School Staff Survey and responses to Attitudes to School Survey.

Differentiated School Performance Groups

The Differentiated School Performance Groups (Figure 1) complement the revised approach to school review and differentiated approach to school improvement.

Five performance groups are identified. This methodology replaces the previous School Improvement Measures and associated School Threshold reports.

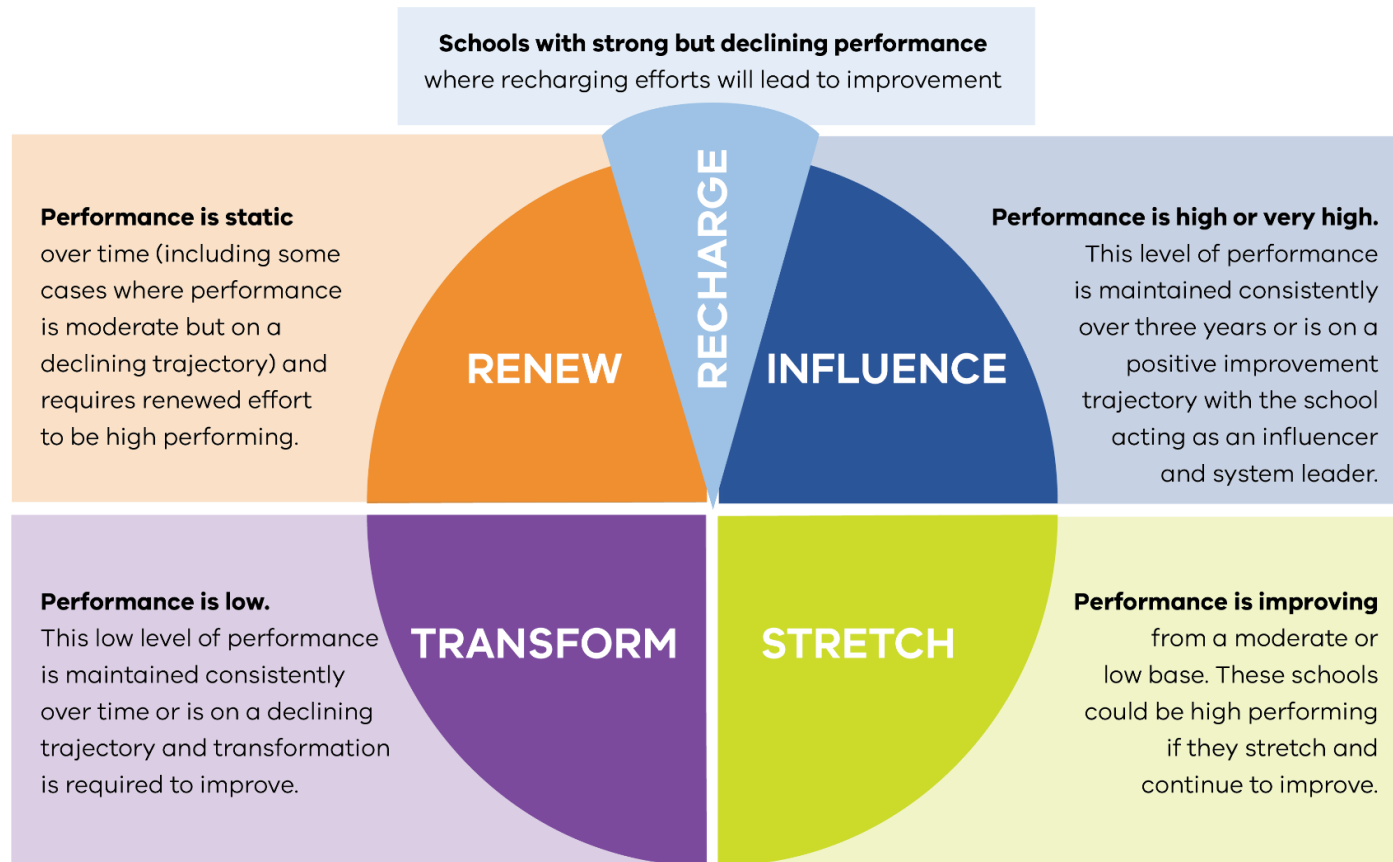

FIGURE 1: THE FIVE SCHOOL PERFORMANCE GROUPS

Determining Your School's Performance Group

		Change Level				
Level		1 (Decreased Significantly)	2 (Decreased)	3 (Maintained)	4 (Increased)	5 (Increased Significantly)
Current Level	5 (Very High)					
	4 (High)					
	3 (Medium)					
	2 (Low)					
	1 (Very Low)					

FIGURE 2: SCHOOL PERFORMANCE TABLE

- To determine your school's performance group, the 'current level' and 'change level' of all schools in the state are segmented into five performance levels to create a five-by-five table (25 segments) for each measure
- Your school's placement within this table, based on your school's 'current level' and 'change level' for each applicable measure, determines the performance group to which your school belongs
- Measures are aggregated to the domain level and an overall performance group level to provide an overall summary of your school's performance

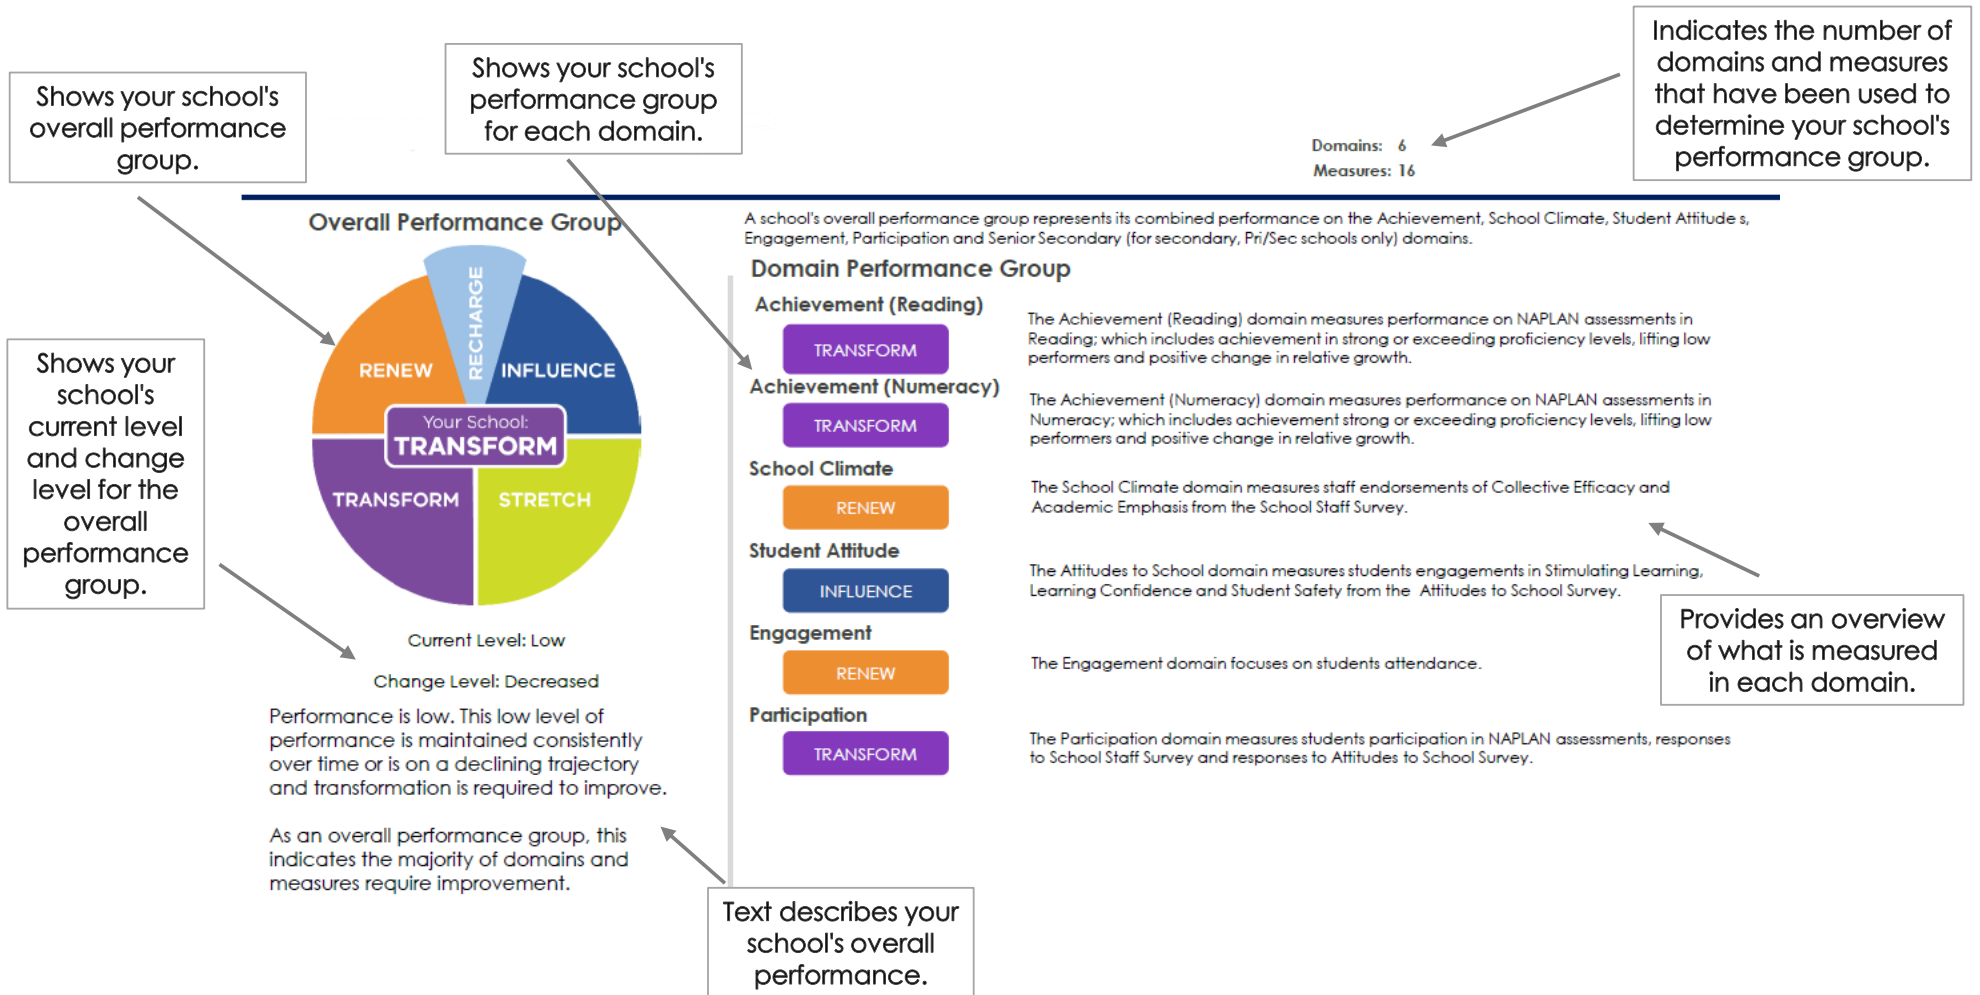

FIGURE 3: MEASURES AND DOMAINS

- The **six domains** and associated **measures** shown at left form the basis of the differentiation method.
- These have been selected based on their alignment to FISO school improvement objectives and Education State targets.

The summary page provides a graphical summary of your school's overall performance group and your performance in each applicable domain.
