

Information for New Enrolments

Students enrolling at Warragul Primary School deserve a smooth entry or transition that enables them to become part of our school with minimum disruption and maximum support.

Home – School Communication:

- A weekly newsletter is emailed or sent home via the eldest in the family on Thursdays.
- We have a Facebook page to keep parents informed of activities and celebrations too - just look for Warragul Primary School and 'like' our page to get the posts.
- Families are welcome to ring or visit the school at any time if you have queries. When visiting the school, please ensure you sign in and out at either office and wear a red visitor lanyard.
- All students at WPS have a student diary/communication book for daily communication between parents and teachers.
- Parents are welcome to meet with teachers, please ask for an appointment.
- Class newsletters are sent home at the beginning of each term from teachers and occasional notes for particular activities.
- At the beginning of the school year, **the office reopens** during the week before students return to school.

Foundation Family Interviews:

- **These are held during the first days of school at the beginning of the new school year.** Families are invited to spend around 45 minutes to meet their child's teacher and share information about your child. Your child is also given a few simple tasks such as cutting and pasting during the interview.
- Families are also asked to attend for more detailed assessments of your child's capabilities on Wednesdays during February.
- To ease the entry to school Prep students do not have school on Wednesdays during February.
